STAMIS	Description	Basis of Issue Plan

SPBS-R

OLD LIN: Z39609

NEW LIN: Not Yet Assigned

NSN: 7010-01-420-4961

REPORTABLE: NO

CAPABILITIES: The SPBS-R system provides on-line management and automated reporting procedures for the Property Book Office and produces updated company level hand receipts. SPBS-R also provides automated interfaces with the Standard Army Retail Supply System (SARSS) for the request and receipt of equipment and the Continuing Balance System - Expanded (CBS-X) for worldwide asset reporting.

BASIS OF ISSUE: One per property book team at:

Separate Combat Brigade

Separate Group/Brigade

Non-Division Battalion

Companies (HHC/HHD)

ULLS-S4

OLD LIN: Z26406

NEW LIN: C18514

NSN: 7010-01-419-4987

REPORTABLE: YES

CAPABILITIES: The ULLS-S4 is used by the battalion and brigade S-4s and unit supply sergeants. Its processes include requisitioning supplies, forecasting basic loads, operational planning, asset visibility at hand receipt and sub-hand receipt levels, and unit load planning. It interfaces with SARSS, ULLS-G, AND SPBS-R.

BASIS OF ISSUE: One per:

Company/HHD Supply

Battalion S-4

Brigade/ACR S-4/Log Section

Group S-4/Log Section

Special Troops

CSSAMO

ULLS-G

OLD LIN: Z26338

NEW LIN: C18446

NSN: 7010-01-419-4989

REPORTABLE: YES

CAPABILITIES: The ULLS-G STAMIS provides the automated management capability to prepare and submit Class IX repair parts transactions, maintenance historical records, equipment usage, faults modification, forecast, and fleet readiness at the company and detachment level of all types of units Armywide. It interfaces with SAMS, SARSS, and ULLS-S4.

BASIS OF ISSUE: One per:

Company/Detachment/Troop/Battery which requires unit-level maintenance support

    CSSAMO

ULLS-A (Flight Co)

OLD LIN: Z17676

NEW LIN: C18582

NSN: 7010-01-419-4990

REPORTABLE: NO

CAPABILITIES: The ULLS-A STAMIS provides the automated logistics support to all Aviation Unit Maintenance (AVUM) and Aviation Intermediate Maintenance (AVIM) level applications. The ULLS-A is used in support of production control and shop operation type functions.

BASIS OF ISSUE: Q0076AA

Aviation Maintenance Company

    CSSAMO

SAMS-1

OLD LIN: Z59617

NEW LIN: C28078*

NSN: 7010-01-420-4975

REPORTABLE: NO

CAPABILITIES: The SAMS-1 automates shop production functions and maintenance control records, maintains shop supplies, and requests repair parts. It receives maintenance data from the battalion maintenance section's ULLS-G..

BASIS OF ISSUE: Q0044AA

Direct Support Maintenance Unit

General Support Maintenance Unit

    CSSAMO

SAMS-2 (2-User)

OLD LIN: Z59685

NEW LIN: C18718*

NSN: 7010-01-420-4976

REPORTABLE: NO

CAPABILITIES: The SAMS-2 provides commanders with selected maintenance, equipment readiness, and equipment performance reports. It also provides readiness data and life cycle management data.

BASIS OF ISSUE: Q0045AA

Direct Support Maintenance Unit

General Support Maintenance Unit

CSSAMO

SAMS-2 (5-User)

OLD LIN: Z59685

NEW LIN: C78759*

NSN: 7010-01-420-4976

REPORTABLE: NO

CAPABILITIES: The SAMS-2 provides commanders with selected maintenance, equipment readiness, and equipment performance reports. It also provides readiness data and life cycle management data.

BASIS OF ISSUE: Q0045AA

Direct Support Maintenance Unit

General Support Maintenance Unit

CSSAMO

GCSS-Army SPR V1

OLD LIN: Z39509

NEW LIN: none

NSN:

REPORTABLE: NO

CAPABILITIES: Serves as the single user configuration that runs the GCSS-Army Supply Property (SPR) Module in the Active Army, Army Reserve and Army National Guard. Where required, this configuration can be operated in a stand alone or local area network (LAN) environment. Depending on the required functionality and duty position, the user will have operational access at the unit supply room, property book/class VII sections, commodity manager, or staff s4/logistics element. It provides modernized supply, supply management and property accounting functions. The GCSS-Army Supply Property Module replaces and enhances the current functional capabilities of SPBS-R and ULLS-S4 systems.

BASIS OF ISSUE: N005AA

GCSS-Army SPR V2

OLD LIN: Z39441

NEW LIN: none

NSN:

REPORTABLE: NO

CAPABILITIES: Serves as the dual user configuration that runs the GCSS-army Supply Property Module in the active Army, Army Reserve and Army National Guiard. Where required, this configuration can be operated in a stand alone or local area network environment. Depending on the required functionality and duty position, the user will have operational access at the unit supply room, property book/class VII sections, commodity manager, or staff s4/logistics element. It provides modernized supply, supply management and property accounting functions. The

GCSS-Army Supply Property Module replaces and enhances the current functional capabilities of SPBS-R and ULLS-S4 systems.

BASIS OF ISSUE: N006AA

GCSS-Army SPR V3

OLD LIN: Z39577

NEW LIN: none

NSN:

REPORTABLE: NO

CAPABILITIES: Serves as the multi-user configuration that runs the GCSS-Army Supply Property Module in the Active Army, Army Reserve and Army National Guard. This configuration is only operated in a local area network environment. Depending on the required functionality and duty position, the user will have operational access at the commodity manager, property book/class VII section or equivalent element. The user profile will control access to the system applications. The GCSS-Army Supply Property Module replaces and enhances the current functional capabilities of SPBS-R and ULLS-S4 systems.

BASIS OF ISSUE: N006AA
